

Free local radio has giveaways, but satellite radio does not. There is no reason to consider any such language to satellite radio. The investment for satellite radio was a factor, \$300.00 or \$400.00 dollars in to have satellite radio. The traveling out of city is a stress, when you can't pick up a local radio station like KERN 1410 nationwide, NO WAY, especially listening to Sean Hannity. As a traveler, xm or Sirius instant traffic is a great thing. And sports. I like the Dodgers and Yankees. Getting nation wide sports is a great thing. Again, regulating is a bad thing, local radio can still win, but not discriminate.
